

TECHWORKS

Your IT Career Starts *Here.*

» What is TechWorks?

TechWorks quickly connects students with little-to-no technical experience to in-demand IT jobs. Through industry-aligned training, stackable credentials, employer connections, individualized support, mindset coaching, and an engaging curriculum, students will prepare to become entry-level IT Support Specialists – with graduates earning more than \$17 per hour on average. Graduates may have the opportunity to connect with **IT recruiters** through the TechWorks Employer Partner Network. Trainees work towards **3 high-value certifications**:

- A+ Certification – CompTIA
- IT Fundamentals Certification – CompTIA
- Business Communication Certification – International Business Training Association

» How long is TechWorks?

TechWorks relies on a boot camp training model – and is **just 12-weeks in length**. Students in the Tampa region will attend **two full days of virtual classroom training** and have access to 1-1 tutoring, coaching, and other activities outside of the virtual training sessions. After TechWorks, students have an additional 30 days of support to prepare for any remaining certification exams.

» What are the major components of TechWorks?

» What topics and content will students learn while attending TechWorks?

- **IT & Technology:** IT Concepts & Terminology, Infrastructure, Applications & Software, Database Fundamentals, Security, Mobile Devices, Networking, Hardware, Virtualization & Cloud, Troubleshooting, Operating Systems, & more.
- **Business Communication:** Structuring Business Communication, Non-Verbal Communication, & more.
- **Job Search Strategies:** Building a Marketable New Resume, Job Search Techniques to Find Work Fast, LinkedIn Profiles that Get Noticed, and Interview Strategies that Land More Job Offers.

» Where is TechWorks located?

TechWorks is a **virtual** training program that simulates a real classroom experience. Students access the virtual training classroom, all learning material, practice exam systems, and more through our easy-to-use Virtual Learning Platform. Laptops with a webcam may be available to students who do not already have one.
